|---------------------------|-----------------|------------------|
| Product no: 10_915_6550   |                 |                  |
| Max working pressure:     | 300             | bar connected    |
|                           | 300             | bar disconnected |
| Min burst pressure:       | 970             | bar connected    |
|                           | 970             | bar disconnected |
| Sealing material:         | NBR             |                  |
| Temperatur range:         | -20°C - +100 °C |                  |
| Nominal flow diameter,DN: | 3               | mm               |
| Connection                | M20x1 Male      |                  |
| Connection stroke:        | -               | mm               |

|                |                 |                          |                             |
|----------------|-----------------|--------------------------|-----------------------------|
| 7              | 1               | Valve                    | Hard. steel, FeZn5          |
| 6              | 1               | Stop for valve           | Steel                       |
| 5              | 1               | Spring                   | Steel                       |
| 4              | 1               | Seal                     | NBR                         |
| 3              | 1               | O-ring                   | NBR                         |
| 2              | 1               | Nipple body              | Hard. steel, black finished |
| 1              | 1               | Back up ring             | PUR                         |
