

## ANB1 High Noise Reduction Silencer - 38dB(A) ANB1-02

Datasheet

### General series information

The high noise reduction style silencer ANA1 keeps the noise level inside a plant below 85dB(A) with a noise reduction effect of 40dB(A). Series ANB1 has a noise reduction effect of 38dB(A) and has a larger effective area with the same port size as series ANA1. It is also available for common exhaust from manifolds.

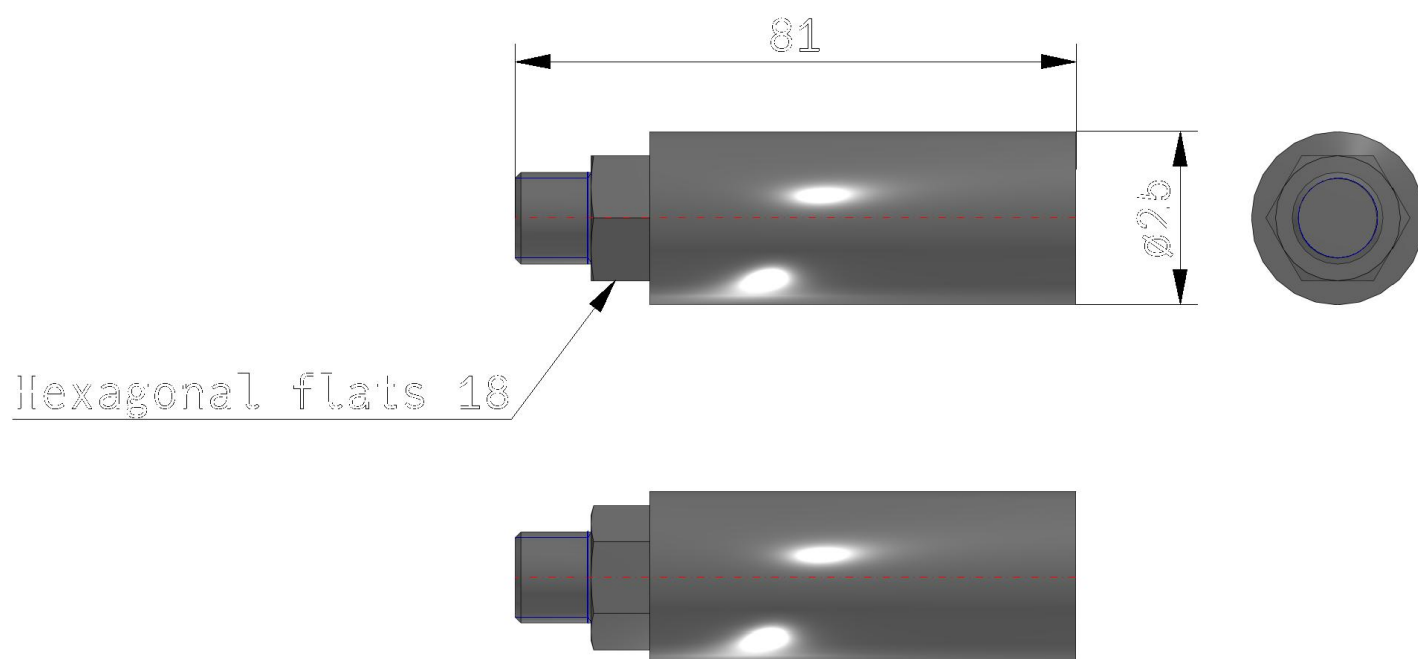

*Silencer*

### Standard specifications

|                                        |                         |
|----------------------------------------|-------------------------|
| Model                                  | ANB1-02 (Port Size 1/4) |
| Pressure medium                        | Compressed Air          |
| Maximum temperature of pressure medium | 60 °C                   |
| Minimum temperature of pressure medium | 5 °C                    |
| Maximum ambient temperature            | 60 °C                   |
| Minimum ambient temperature            | 5 °C                    |
| Pneumatic input connection             | R 1/4                   |
| Noise reduction                        | -38 dB (A)              |
| Weight                                 | 0.021 Kg                |
