

## D-A90/A93/A96, Reed Switch, Direct Mounting, Grommet, In-line D-A90L

Datasheet

### General series information

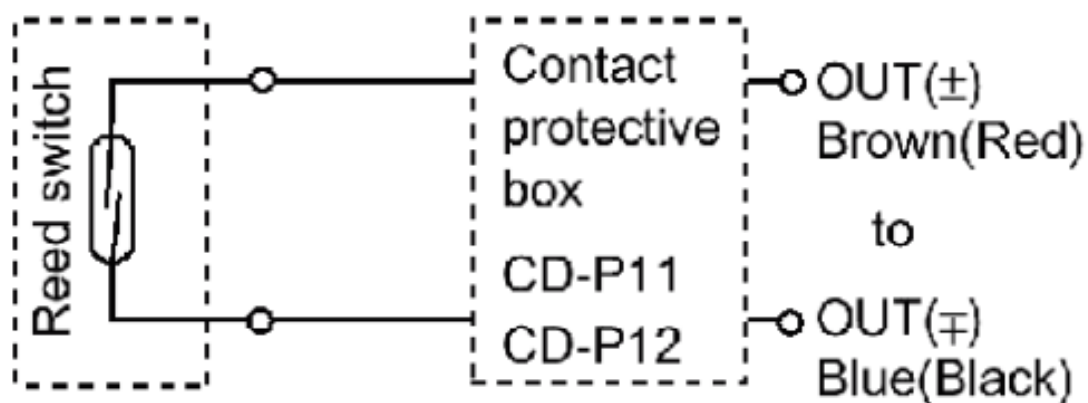

- Electrical entry: Grommet.
- Application Load: IC circuit/Relay/PLC, 24V DC Relay/PLC.
- Power voltage: 100VAC/48V DC (4 to 8V DC).
- Load current: 5 to 50mA.
- Applicable Actuator Series: CDU, CDQS, CDQ2, MY1, MXU, MXW, MXF, MXS, MXQ, MXP, MTS, CXT, MK, MK2, RSQ, CEP, CY1R.

### Standard specifications

|                            |                                                                   |
|----------------------------|-------------------------------------------------------------------|
| Model                      | A90 (DC Volt <48, AC Volt <100)                                   |
| Lead Wire Length           | L (3 m)                                                           |
| Approvals                  | CE                                                                |
| Electrical entry direction | In-line                                                           |
| Applicable load            | IC circuit, Relay, PLC                                            |
| Internal resistance        | 1 $\Omega$                                                        |
| Load voltage               | $\leq 24$ V (50 mA), $\leq 48$ V (40 mA), $\leq 100$ V (20 mA)    |
| Load current               | 50 mA ( $\leq 24$ V), 40 mA ( $\leq 48$ V), 20 mA ( $\leq 100$ V) |
| Weight                     | 0.030 Kg                                                          |

## Dimensions

# D-A90

## Additional information

|                           |                                                                                       |
