

Rod Clevis - GKM - SMC GKM4-8

Item no. SMC-GKM4-8 Manufacturer SMC

Manufacturer no. GKM4-8

Model: 4-8 (Applicable Thread M4 x 0.7)

TECHNICAL DATA

Artikel-Authentizität	Originalprodukt
Artikelzustand	Neu
Weight	0.0092 kg
Zolltarifnummer	73269098

DESCRIPTION

With the expansion of our Series C(P)96 ISO range, we can now offer our customers even greater flexibility and cylinder performance. Now available in a non rotating rod type (CP96K(W)/C96K(W)), these cylinders offer great precision and deliver non-rotating accuracy of $\pm 0.5^\circ$ or $\pm 0.3^\circ$ in $\varnothing 32$ to $\varnothing 63$ or $\varnothing 80$ and $\varnothing 100$ bore size respectively. Also, we have introduced a smooth cylinder type, with reduced piston sliding resistance (C96Y) which is particularly suitable for transfer applications requiring smooth movements at low pressure. For applications in explosive atmospheres, the C(P)96 range is now available in an ATEX compliant version (55-C(P)96 which meets ATEX category zone 2, or category zone 3 when fitted with an auto-switch). With a growing range of "made to order" options available as standard and a choice of rod boot materials, there has never been a better time to check out our Series C(P)96 cylinder range.
