

MXSL, Air Slide Table (Symmetrical) - SMC MXS16L-125

Item no. SMC-MXS16L-125**Manufacturer SMC**

Bore Size: 16mm Port Thread: Rc Stroke: 125mm Adjuster: w/o
Adjuster Auto Switch: No Switch Lead Wire or Prewired Connector:
0.5m [Or None in the Case of No Switch] Number: 2 pcs. [Or None
in the Case of No Switch]

TECHNICAL DATA

Weight	1.7 kg
Zolltarifnummer	84123100

DESCRIPTION

Applications that call for precise movement ranging from 10-150mm (1/2-6") typically require a cylinder and a precision guide. The MXS accomplishes this by integrating a cross roller bearing with a guide and two small air cylinders for compact force generation. The MXS is available in six sizes each with set stroke lengths and is standard with auto switch capability. Stroke adjustments are available for extend, retract, or both in ranges of 0-5mm, 0-15mm, and 0-25mm. In addition, there are many other standard options that include, shock absorbers, end lock, axial piping, and buffer.
