

MXS, Accessory, Stroke Adjuster - SMC MXS-AS20-X12

Item no. SMC-MXS-AS20-X12**Manufacturer SMC**

Stroke Adjuster: AS (Stroke Adjuster, Extension End) Bore Size: ø20 Adjustable stroke range: X12 (25mm)

TECHNICAL DATA

Weight	0.1 kg
Zolltarifnummer	84129080

DESCRIPTION

Applications that call for precise movement ranging from 10-150mm (1/2-6") typically require a cylinder and a precision guide. The MXS accomplishes this by integrating a cross roller bearing with a guide and two small air cylinders for compact force generation. The MXS is available in six sizes each with set stroke lengths and is standard with auto switch capability. Stroke adjustments are available for extend, retract, or both in ranges of 0-5mm, 0-15mm, and 0-25mm. In addition, there are many other standard options that include, shock absorbers, end lock, axial piping, and buffer.
