

IS10, Pressure Switch, Reed Switch Type - SMC

IS10-01-6LP

Item no. SMC-IS10-01-6LP

Manufacturer SMC

Thread: R Seal: None Options: 6LP (6 + L + P)

TECHNICAL DATA

Weight	0.1 kg
Zolltarifnummer	85365019

DESCRIPTION

Following an extensive review of our popular Solid State IS1000 pressure switch, our R&D engineers have totally redesigned the product and have added even more performance improvements. Its replacement reed type pressure switch, our new Series IS10, is now around 11% shorter and 16% lighter than the previous model. As the pressure switch can be connected directly to modular F.R.L. units improved handling and mounting is ensured and with easier setting and a clearer visual display, operational performance is enhanced. Suitable for use with pressure ranges from 0.1 to 0.6 MPa, depending on your selected model, the new Series IS10 offers a service life of five million cycles and is both RoHS and CE compliant.
