

RJ, Shock Absorber, Soft Type - SMC RJ1412LUS

Item no. SMC-RJ1412LUS

Manufacturer SMC

Size: 1412 (Standard, O.D. Thread M14x1.5, Stroke 12mm)
Collision Speed Range: L (0.05 to 1 m/s) Cap: U (With Urethane Cap) Option: S [Hexagon nut (2 pcs.), Stopper nut (1 pc.)]

TECHNICAL DATA

Weight	0.1 kg
Zolltarifnummer	84123100

DESCRIPTION

Light load applications requiring quick low speed stops now have the perfect solution thanks to our new Series RJ soft type shock absorbers. Designed initially for use with our air slide table, rodless and rotary cylinder ranges, Series RJ ensures softer absorption making it ideal for small conveyors which often require soft stop performance. Fully interchangeable with our existing Series RB absorber range, this new series - with their patented spiral groove design - offer outstanding durability and a 30% reduction in cushioning time. Available in three energy absorbency options, 1, 3 and 10 (J) and stroke lengths of 6, 7 and 12mm respectively, Series RJ really is the ideal choice when soft absorption is a necessity.
