

MXS, Air Slide Table, Cross Roller Guide - SMC MXS20TF-50AS

Item no. SMC-MXS20TF-50AS**Manufacturer SMC**

Bore Size: 20mm Port Thread: TF (G) Stroke: 50mm Adjuster: AS
(Adjuster at Forwarding End) Function: Standard Auto Switch: No
Switch Lead Wire or Prewired Connector: 05 M Lead Wire [Or
None in the Case of No Auto Switch] Number: 2 pcs. [Or None in
the Case of No Switch]

TECHNICAL DATA

Weight	0.1 kg
Zolltarifnummer	84123100

DESCRIPTION

Applications that call for precise movement ranging from 10-150mm (1/2-6") typically require a cylinder and a precision guide. The MXS accomplishes this by integrating a cross roller bearing with a guide and two small air cylinders for compact force generation. The MXS is available in six sizes each with set stroke lengths and is standard with auto switch capability. Stroke adjustments are available for extend, retract, or both in ranges of 0-5mm, 0-15mm, and 0-25mm. In addition, there are many other standard options that include, shock absorbers, end lock, axial piping, and buffer.
