

Flat Saddle, for up to 101 kN Cylinders - Enerpac A102F

Item no. ENP-A102F

Manufacturer Enerpac

Flat saddle for Enerpac cylinders up to 101 kN that protects the plunger and thread while spreading the load evenly, with a 1 inch - 8 UNC thread.

TECHNICAL DATA

Country of Manufacture **United States**Hinweis **Industriewerkzeuge**Kapazität (kN) **100-250 kN**Weight **0.1 kg**

DESCRIPTION

The A102F flat saddle protects the plunger of Enerpac cylinders up to 101 kN and spreads the load evenly across flat contact surfaces. Threading it onto the plunger shields the plunger thread and increases the contact area.

BENEFITS

- Protects the plunger and plunger thread from direct load
- Flat face for even force transfer onto flat loads

TECHNICAL DATA

- Type: flat saddle
- For cylinders: up to 101 kN
- Thread: 1 inch - 8 UNC
- Manufacturer no.: A102F
