

Pneumatic Torque Wrench, 4067 Nm, 1 in. Square Drive - Enerpac PTW3000

Item no. ENP-PTW3000

Manufacturer Enerpac

Pneumatic torque wrench with 4067 Nm and a 1 in. square drive. Continuous high-speed rotation gives constant torque output, and the air motor runs with low vibration and noise.

TECHNICAL DATA

Country of Manufacture	United States
Hinweis	Verschraubungsgeräte
Series	PTW
Weight	10.4 kg

DESCRIPTION

The PTW3000 pneumatic torque wrench delivers 4067 Nm through a 1 in. square drive with continuous high-speed rotation for constant torque output. A low-friction planetary gearbox and a low-noise air motor keep bolting fast and low-fatigue indoors and outdoors.

BENEFITS

- Continuous high-speed rotation for constant torque output
- Low-friction planetary gearbox minimizes wear and extends uptime
- Ergonomic, low-vibration design reduces fatigue and injury risk
- Low-noise air motor for consistent performance indoors and outdoors
- Supplied with a standard reaction arm and a wide range of custom arms

TECHNICAL DATA

- Torque: 4067 Nm
- Drive: 1 in. square
- Weight: 10.4 kg
- Series: PTW

IN THE BOX

- Torque wrench with standard reaction arm

- Calibration certificate
