

Hydraulic Cylinder and Air Pump Set, 232 kN, 158 mm Stroke - Enerpac SCR256XA

Item no. ENP-SCR256XA

Manufacturer Enerpac

Hydraulic cylinder with 232 kN capacity and 158 mm stroke, matched with a air-hydraulic pump. Ready-to-use 700 bar hydraulic set for lifting, pushing and tensioning.

TECHNICAL DATA

Country of Manufacture	United States
Hinweis	Industriewerkzeuge
Kapazität (kN)	100-250 kN
Serie	SCR
Weight	0.1 kg

DESCRIPTION

The set pairs a hydraulic cylinder rated at 232 kN with a 158 mm stroke and a air-hydraulic pump for a ready-to-use hydraulic solution.

BENEFITS

- Matched cylinder and pump combination, no need to source parts separately
- Versatile general-purpose cylinder for lifting, pushing and straightening
- Compressed-air drive with no electrics, suitable for hazardous areas

TECHNICAL DATA

- Capacity: 232 kN
- Stroke: 158 mm
- Pump: air-hydraulic pump
- Operating pressure: 700 bar
- Series: SCR
