

Safe T Torque Lock, 3 1/8 in., for RSQ11000 Torque Wrench - Enerpac STTLR1115318

Item no. ENP-STTLR1115318

Manufacturer Enerpac

Safe-T Torque Lock, 3 1/8 in. across flats, for the RSQ11000 torque wrench. It allows hands-free work with a secure grip in any orientation.

TECHNICAL DATA

Country of Manufacture	United States
Hinweis	Verschraubungsgeräte
Series	STTL
Weight	7.4 kg

DESCRIPTION

The STTLR1115318 Safe-T Torque Lock turns the RSQ11000 torque wrench into a hands-free tool. The patented mechanical locking system grips the application with one twist of the collar and holds the full tool weight in place, sized for 3 1/8 in. across flats.

BENEFITS

- Hands-free operation lowers the injury risk at pinch points
- Secure grip in any orientation, including inverted
- Locks with a twist of the collar, with no loose parts

TECHNICAL DATA

- Type: Safe-T Torque Lock
- Across flats: 3 1/8 in.
- Suitable for: RSQ11000
- Weight: 7.4 kg
- Series: STTL

NOTE

Not suitable for PTFE-coated nuts.
