DESCRIPTION

GEARex is a torsionally rigid all-steel gear coupling from KTR. The crowned toothed hubs engage sleeves with internal teeth and transmit high torque while compensating misalignment.

BENEFITS

- High torque density through all-steel construction
- Crowned teeth compensate shaft misalignment

VERSION

GEARex 15 Type FA beids. Hub D.32H7 NND thread with S-Hülsen assembled.

APPLICATIONS

High-torque drives in heavy machinery and plant.
