TECHNICAL DATA

Country of Manufacture	Germany
Series	Pumpenträger
Weight	1.33 kg
Zolltarifnummer	84139100

DESCRIPTION

The KTR pump carrier (bell housing) connects a hydraulic pump to the drive motor and keeps both in alignment. It absorbs the reaction torque and damps vibration.

BENEFITS

- Accurate alignment of pump and motor
- Reduces structure-borne noise and running noise
- Standardised connection dimensions for common sizes

VERSION

Pump Carrier PFL 200/6/36.

APPLICATIONS

Building hydraulic power units where a pump is flanged to a standard electric motor.
