TECHNICAL DATA

Country of Manufacture **Germany**

Series **Pumpenträger**

Weight **4.3 kg**

Zolltarifnummer **84139100**

DESCRIPTION

The KTR pump carrier (bell housing) connects a hydraulic pump to the drive motor and keeps both in alignment. It absorbs the reaction torque and damps vibration.

BENEFITS

- Accurate alignment of pump and motor
- Reduces structure-borne noise and running noise
- Standardised connection dimensions for common sizes

VERSION

Pump Carrier PK 350/60/16.

APPLICATIONS

Building hydraulic power units where a pump is flanged to a standard electric motor.
