

ROTEX 65 Hub cast iron, unbored - KTR 020653000050

Item no. KTR-020653000050

Manufacturer KTR

Coupling hub for the ROTEX 65 jaw coupling in cast iron, unbored. Mounts on the shaft and transmits torque through the spider.

TECHNICAL DATA

Country of Manufacture	Germany
Material	Grey cast iron (GG)
Series	ROTEX
Weight	6.3 kg
Zolltarifnummer	84839089

DESCRIPTION

ROTEX is a torsionally flexible jaw coupling from KTR. It transmits torque positively through an elastomer spider between two jaw hubs and compensates angular, radial and axial shaft misalignment. If the spider wears, the jaws engage with each other so the coupling stays fail-safe.

BENEFITS

- Sturdy hub for durable torque transmission
- Supplied unbored for machining to shaft size
- Combines with any ROTEX 65 spider

TECHNICAL DATA

- Size: ROTEX 65
- Material: cast iron
- Bore: unbored

APPLICATIONS

A complete coupling needs two hubs and one spider of size 65.
