

ROTEX 75 Hub steel, unbored - KTR 020755110040

Item no. KTR-020755110040

Manufacturer KTR

Coupling hub for the ROTEX 75 jaw coupling in steel, unbored. Mounts on the shaft and transmits torque through the spider.

TECHNICAL DATA

Country of Manufacture	Germany
Material	Steel
Series	ROTEX
Weight	18 kg
Zolltarifnummer	84839089

DESCRIPTION

ROTEX is a torsionally flexible jaw coupling from KTR. It transmits torque positively through an elastomer spider between two jaw hubs and compensates angular, radial and axial shaft misalignment. If the spider wears, the jaws engage with each other so the coupling stays fail-safe.

BENEFITS

- Sturdy hub for durable torque transmission
- Supplied unbored for machining to shaft size
- Combines with any ROTEX 75 spider

TECHNICAL DATA

- Size: ROTEX 75
- Material: steel
- Bore: unbored

APPLICATIONS

A complete coupling needs two hubs and one spider of size 75.
