

Manometerschutzventil Gusseisen / Steel, galvanised Anschluss: 1/4 NPT Nominal Size - Stauff 1910000558

Item no. STF-1910000558

Manufacturer Stauff

Manometerschutzventil Gusseisen / Steel, galvanised Anschluss: 1/4 NPT Nominal Size. The STAUFF pressure gauge reliably indicates the working pressure in hydraulic and pneumatic systems.

TECHNICAL DATA

Country of Manufacture	Germany
Material	Steel
Weight	0.386 kg
Zolltarifnummer	84814010

DESCRIPTION

The STAUFF pressure gauge reliably indicates the working pressure in hydraulic and pneumatic systems. The rugged case and damped movement provide a stable reading even under pressure surges.

BENEFITS

- Stable reading through a damped movement
- Rugged stainless steel case for harsh environments
- Pressure ranges and connections for standard hydraulic applications

VERSION

Manometerschutzventil Gusseisen / Steel, galvanised Anschluss: 1/4 NPT Nominal Size.

APPLICATIONS

Pressure indication and monitoring on hydraulic power units, test benches and systems.
